INDEX TO VOLUME 12

This index covers the issues for 1999, as follows: January–March, pages 1–64; April–June, pages 65–184; July–September, pages 185–260; October–December, pages 261–348.

Subjects

Alderson-McGall hand function questionnaire (AMHFQ), for carpal tunnel syndrome, 313
American Society of Hand Therapists (ASHT),
  1998 presidential address, 3
  proceedings of 21st annual meeting, abstracts from, 236
Amputation injury(ies), surgical treatment of, 152
Anesthesia, local, and length discrimination, 291
Angle(s), measurement of. *See* Goniometric evaluation(s)
Arterial laceration(s), surgical treatment of, 152
Arthritis(itides),
  surgical treatment for, 123
  therapeutic management after surgery for, 133
Arthrodesis, total wrist, for painful instability, 103
Arthroplasty(ies),
  carpal implant,123; 133
  of hand and wrist,
    surgical treatment of, 123
    therapeutic management of, 133
  of small joints of hand, rehabilitation after (proc. abstract), 53
  total elbow, 66
  trapeziometacarpal of thumb, early mobilization after (proc. abstract), 240
Arthroscopy, wrist,
  rehabilitation after, 108
  surgical uses of, 103
Author(s), mentoring for, in hand therapy (editorial), 1
Avulsion injury(ies), ring, surgical treatment of, 152

Belly gutter splint, force analysis of, 337
Bifid thumb(s),
  surgical treatment of, 164
  therapeutic management of, 174
Blatt capsulodesis, for scapholunate ligament disruption (proc. abstract), 249
Blood vessel injury(ies),
  surgical treatment of, 152
  therapeutic management of, 160
Bone grafts, vascularized, to wrist, 103
  therapeutic management of, 108
Bone injury(ies), in hand,
  surgical treatment of, 111
  therapeutic management of, 121
Bone replacement(s), isolated carpal, 123
  therapeutic management of, 133
Buerger disease (thromboangiitis obliterans), surgical treatment of, 152
Burn(s), of the hand, uniform record for patients with, 333

Capener splint, force analysis of, 337
Carpal bone replacement(s), isolated, 123
  therapeutic management of, 133
Carpal disorders,
  surgical treatment of, 103
  therapeutic management of, 108
Carpal tunnel syndrome,
  Alderson-McGall hand function questionnaire for, 313
  diagnostic tests for, analysis of (proc. abstract), 243
  endoscopic surgery for, outcome after (proc. abstract), 245
  palm release for, limited, outcome after (proc. abstract), 244
  provocative test for, new (lit. abstract), 46
  risk factors for in women (proc. abstract), 59
Carpometacarpal (CMC) joint, long-term splinting of, patient satisfaction with (proc. abstract), 241
Carpus. *See* Wrist
Case report(s), and case studies, guidelines for preparing (research for clinician), 230
Cast immobilization, of distal radius fracture, 92
  impairment after, 201
Casting, serial, for PIP flexion contractures (proc. abstract), 242
Children, preschool, hand function in (proc. abstract), 55
Clinical study(ies), need for in hand therapy (ASHT presidential address), 3
Colditz J.C., McGrouther D.A., *The Interactive Hand: Therapy Edition. CD-ROM* (book review), 44
Computer age, challenges of (editorial), 185
Computer-related RSI, pointing devices and (proc. abstract), 51
Congenital difference(s) of hand,
  surgical treatment of, 164
  therapeutic management of, 174
Contracture(s),
  flexion,
    of IP joint, finger sleeve for (proc. abstract), 53
    of PIP joint, serial casting for (proc. abstract), 242
  of elbow,
    rehabilitation for, 73
    surgical treatment of, 66
Crush injury(ies), of forearm, surgical treatment of, 75

Debridement, arthroscopic, in wrist, therapeutic management of, 108
Decompression, of peripheral nerves, 135
Dellon A. L., *Somatosensory Testing and Rehabilitation* (book review), 42
Dexterity testing, reliability of NK dexterity board for, 7; (proc. abstract), 239
Digital diagnoses, in digital world (editorial), 185
Digital joint(s), silicone arthroplasty for replacement of, 123
Dislocation(s), of forearm fracture(s),
  surgical treatment of, 75
  therapeutic management of, 92
Distal radioulnar joint, dislocation of, surgical treatment of, 75
Distal radius fracture(s),
  cast immobilization for, 92
    impairment after, 201
  outcome measures for (proc. abstract), 247
  surgical management of,92; 111
  therapeutic management of, 99
  with isolated mononeuropathy of ulnar nerve (proc. abstract), 59
Dynamic traction splint(s), and early motion for MCP joint fractures, 219

  surgical management of,92; 111
  therapeutic management of, 99
  with isolated mononeuropathy of ulnar nerve (proc. abstract), 59
Dynamic traction splint(s), and early motion for MCP joint fractures, 219

Edema reduction, manual mobilization technique for (proc. abstract), 57
Effect size, statistical, interpretation of (research for the clinician), 40
Elbow contracture,
surgical treatment of, 66
therapeutic management of, 73
Elbow, reconstruction of, 66
Essex-Lopresti fracture dislocation(s), surgical treatment of, 75
Exercise,
for chronic wrist pain (proc. abstract), 249
volume changes in noninjured hands after (proc. abstract), 248
Exertional compartment syndrome, evaluation and treatment of (lit. abstract), 46
Extensor tendon repair(s),
early active extension after (proc. abstract), 49
immobilization vs. early passive mobilization after (proc. abstract), 50; 55

Fabrication, of splints. *See* Splint fabrication
Finger force, measuring with Kin-Com dynamometer, 263
Finger movement(s), and length discrimination, 291
Finger sleeve(s), for interphalangeal joint flexion contracture (proc. abstract), 53
Finger(s), webbing of,
surgical treatment of, 164
therapeutic management of, 174
Finger, distal, protective splint for (practice forum), 38
Fingernail length,
and hand performance (proc. abstract), 54
excessive, as soft tissue risk factor (proc. abstract), 250
Fingertip, splinting after VY flap advancement of (proc. abstract), 56
Flexor tendon injury(ies),
surgical repair of, 141
therapeutic management of, 149
Flexor tendon repair, 141
active mobilization after, 141; 149
modified Indianapolis protocol for early motion after (proc. abstract), 246
Flexor tenolysis, postoperative management of, 330
Fluid volume, forearm and hand, sphygmomanometer-induced increases in, 275
Forearm deformity(ies),
surgical treatment of, 164
therapeutic management of, 174

Forearm,
anatomy and biomechanics of, 75
congenital failure to form,
surgical treatment of, 164
therapeutic management of, 174
PRFEQ for assessing pain and function in, 31
rotational goniometry, new device for (proc. abstract), 237
Fracture dislocation(s), of forearm, surgical treatment of, 75
Fracture(s),
distal radius,
cast immobilization for, 92
impairment after cast immobilization for, 201
outcome measures for (proc. abstract), 247
surgical management of, 92; 111
therapeutic management of, 99
with isolated mononeuropathy of ulnar nerve (proc. abstract), 59
forearm,
surgical repair of, 75; 111
therapeutic management of, 85
MCP joint, dynamic traction splint and early motion for, 219
metacarpal, internal fixation of, 111
Functioning free muscle transfer (FFMT), rehabilitation after (proc. abstract), 53

Galeazzi fracture dislocation(s), surgical treatment of, 75
Ganglionectomy, arthroscopic, in wrist, therapeutic management of, 108
Goniometric evaluation(s),
of shoulder ROM, 187
passive forearm, new device for (proc. abstract), 237
Grating orientation test, for spatial discrimination (proc. abstract), 57
Grip strength,
determining clinically relevant changes in, 25
dynamic vs. static, 212; (proc. abstract), 236
dynamic, new device for measuring, 212; (proc. abstract), 236
in students (proc. abstract), 55
normal, predictive equations for, 193
normative values for, 193
test-retest reliability of measurements of, 25

Hand care, in new millennium (editorial), 65
surgeon's perspective on, 178
therapist's commentary on, 178
Hand function,
assessment in hand-arm vibration syndrome, 25
impairment of, after cast immobilization of distal radius fracture, 201
in preschool children (proc. abstract), 55
Hand therapists, occupational injury in (proc. abstract), 51
Hand therapy research, academic rigor in (editorial), 1
Hand therapy,
as specialty practice, history of (ASHT presidential address), 3
international contributions to (editorial), 261
Hand volume,
after exercise, changes in (proc. abstract), 248
sphymomanometer-induced changes in, 275
Hand-arm vibration syndrome, hand function assessment in workers with, 16
Hinge(s), for dynamic splints (practice forum), 229
Hunter J. M., Schneider L. H., Mackin E. J.,*Tendon and Nerve Surgery in the Hand: A Third Decade* (book review), 233
Hypoplasia, of thumb,
surgical treatment of, 164

Patient-rated forearm questionnaire (PRFEQ), for patients with lateral epicondylitis, 31
Peripheral input, and length discrimination, 291
Peripheral nerve decompression, 135
Peripheral nerve repair, clinical methods of, 135
Phalange(s), internal fixation of fractures of, 111
Plate and screw fixation, of forearm fractures, 111
Pointing device(s), and computer-related RSI (proc. abstract), 51
Pollicization, for absent thumb, 160
  rehabilitation after, 174
Pronation, of hand, new device for measuring (proc. abstract), 237
Prosthesis(es),
  for elbow reconstruction, 66
  upper limb, patient satisfaction with (proc. abstract), 56
Protective distal finger splint (practice forum), 38
Proximal interphalangeal (PIP) joint(s),
  contractures of, serial casting for (proc. abstract), 242
  splints for, force analyses of, 337
  volar plate injuries of, comparison of splints for (proc. abstract), 52
Proximal radioulnar joint, dislocation of, surgical treatment of, 75
Pulsed shotwave therapy, and laser treatment for wound healing (proc. abstract), 58
Purdue pegboard test, validity in hand injury assessment (proc. abstract), 50

Radial longitudinal deficiency,
  surgical treatment of, 164
  therapeutic management of, 174
Radial nerve palsy, comparison of splint designs for (proc. abstract), 49
Radial nerve paralysis, in tendon transfer surgery (proc. abstract), 59
Radioulnar joint injury(ies),
  surgical treatment of, 75
  therapeutic management of, 85
Range of motion (ROM),
  of shoulder, evaluation of, 187
  of wrist/forearm, grip strength and, 212; (proc. abstract), 236
Raynaud phenomenon, surgical treatment of, 152
Records, standardized, for burns of the hands, 333
Regional outcome measure(s), applicability to upper extremity, 269
Rehabilitation, video-conferencing as tool in (proc. abstract), 56. *See also* names of specific disorders
Reliability, test-retest,
  of grip strength measurements in women, 25
  of NK dexterity board, 7; (proc. abstract), 239

Repetitive strain injury(ies) (RSI), computer-related, pointing devices and (proc. abstract), 51
Research report(s), role of statistics in (editorial), 1
Research, hand therapy, academic rigor in (editorial), 1
Resurfacing, of small joints of hand, rehabilitation after (proc. abstract), 53
Rheumatoid arthritis, hand function tests in, 323. *See also* Arthritis(itides).
Rigor, academic, in hand therapy research (editorial), 1
Ring avulsion injury(ies), surgical treatment of, 152
Rotation, of shoulder(s), goniometric evaluation of, 187

Scapholunate ligament disruption, Blatt capsulodesis for (proc. abstract), 249
Sensory recovery, tingling sign during, 298
Sequential Occupational Dexterity Assessment (SODA), in rheumatoid arthritis, 323
Shape/identification test, for tactile gnosis (proc. abstract), 52
